Some rambling from the AnCo² team.

Red - This chapter is fucking cursed I tell you, all I have to say. Once summer comes you'll see much more of this. If people actually want us to continue this that is.

Kryss - We're working on this but we're only human. Thanks for your patience. GATTA!!!!!!

MythO - Edited in an ENIAC computer, smuggled down from the Smithsonian Museum after a night with too much fun and tequila. ;)

As always thanks to all the commenters and Flyvapnet for donating! And whoever I might have forgotten <
